

TWENTIETH YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, NOVEMBER 4, 1909.

No. 42

DEMOCRATS ALL ELECTED

R. M. Salmon Wins Hopkins County by 1100, Leading His Ticket

WADDILL GETS BIG HOME VOTE
BUT LOSES FOR CIRCUIT JUDGE

News of County and City Election

There was almost an entire absence of anything in the least unpleasant in the conduct of the election in the three Earlington precincts on Monday, in spite of the fact that there were more than a usual number of our citizens interested and at work at the polls. A good, big vote was polled at each of the local precincts. Not the largest ever, but a very good vote for any year except a presidential election. The vote of the county, by precincts is printed in this issue, in which a comparison is made with the last county election, four years ago, and the Earlington precincts may be there figured and compared by any reader so disposed.

The most unusual thing about the whole election in the county is the big lead of the Hon. R. M. Salmon, democratic candidate for State Senator, over all the other candidates for any office on his ticket. The figures are interesting and are attracting more attention than anything in the result of the election. Mr.

Salmon is elected by something like 1100 majority in Hopkins, while the majorities, in the county judge and circuit judge's race are little over 100. In Christian county Mr. Salmon has something like 500 majority, where usually the normal republican majority is 1000 or more. In Christian all the democratic county ticket is elected by majorities running from 250 to 500.

The gains made by the Hon. C. J. Waddill, republican candidate for circuit judge, in his home county, over the vote of four years ago, make a showing most complimentary to him. In one Madisonville precinct, the Court House, this gain amounts to 123. Mr. Waddill led his ticket by about 300 in Hopkins county. Judge J. F. Gordon was elected by about 300 majority, having carried Hopkins, Caldwell and Livingston counties. Mr. Waddill carried Crittenden by 227 majority.

Mr. A. J. Bennett was elected police judge over the present incumbent, Judge Ernest Newton, by a majority of 161. There was no contest for Mayor or members of the City Council, the old officials being elected without opposition. They are Jas. R. Rash, mayor; L. H. O'Brien, John B. Atkinson, Thos. Blair, H. C. Bourland, Geo. C. Atkinson and J. M. Oldham, councilmen.

Esq. James Priest was elected magistrate over Esq. John R. Evans, the present incumbent, who made no effort to be re-elected and had permitted his name to be placed on the ballot rather against his will. Esq. Priest declared that if he thought Mr. Evans wanted the place he would not be out in opposition to him. Mr. Priest's majority was 15, out of something like 1000 votes cast.

It is a matter of general comment, the quietness and good feeling with which the election passed off, and everybody here seems to be in a good humor, including the defeated candidates. A very nice complimentary vote was given to N. L. Tamm.

our townsmen, who was candidate for circuit court clerk on the Democratic ticket without opposition, a number of Earlington Republicans casting their votes for him in a spirit of neighborliness.

LAW AND ORDER JUDGE ELECTED.

Louisville, Ky., Nov. 3.—The Democratic stronghold of Calloway county today elected Judge Patterson County Judge, who is the first Republican ever elected to a county office there. Judge Patterson was appointed by Gov. Wilson to succeed Judge A. J. G. Wells, a Democrat, who was made a member of the State Board of Control by reason of his stand against the night riders. The law and order element is responsible for the election of Judge Patterson. All the other county officers were taken into camp by the Democrats.

FOR AIRSHIP RACES

Big Aviation Meeting to be Held at Latonia Track.

Cincinnati, O., Oct. 31.—Plans for an aviation meeting to be held near this city were announced today, the funds for the event having been subscribed by a number of local capitalists who are interested in navigation of the air. November 12, 13 and 14 are the days selected for the meeting.

The flights will be made from Latonia race track, on the outskirts of Covington, Ky., and Glenn H. Curtiss in his bi-plane, and Roy Knabenhue and Lincoln Beachy in dirigibles, have already made contracts with those in charge of the enterprise.

The meeting is being promoted by an organization independent of the Cincinnati Aero Club, but it is stated will receive the support of the latter body in its effort to make the affair a success.

Among those in charge of the arrangements for the meetings are former Mayor Julius Fleischmann and his brother, Max Fleischmann, who recently made a long distance flight from St. Louis to a point near Richmond, Va., in the car with A. Holland Forbes; Benson Foraker, Horace Schmidlapp, Lee Ault and others.

The committee on prizes today arranged a program which it is believed will bring together at the meeting here many of the best known aviators in the country.

Meeting at St. Charles.

The following named gentlemen and ladies attended the meeting that is being held at St. Charles this week: W. S. McGary and wife, Henry Browning and wife, Rev. Moore and wife, Henry Rogers and wife, Jno. Long and wife, C. H. McGary and wife, Todd Maxwell, Cliff Long and Miss Ruth Wyatt. They drove over in carriages. This meeting is creating much interest and a number of additional have been added. Rev. Maxwell, who held revival services here a short time ago, is the leader.

Democrats Win in Owensboro and Daviess County

Owensboro, Ky., Nov. 3.—The Democrats carried Owensboro and Daviess county by a big majority. Dr. S. Lambert defeated A. J. Williams in the Mayoral race by a plurality of over 100, giving Owensboro its first Democratic Mayor in years. The entire city Democratic ticket was elected there.

HOUSE BURNED WITH BALLOTS

While Soldiers Were at Their Meals at Crockettsville

NEW BALLOTS WERE SENT OUT

Jackson, Ky., Nov. 2.—The home of Mrs. Mary Deaton, where the ballots of the Crockettsville precinct were kept burned while the soldiers sent to guard the precinct were at meals. The ballots were destroyed. New ballots were sent out. The ballots from Sebastian precinct were stolen.

Mrs. Deaton's husband was killed by Ed Callahan's men 12 years ago. The house, was to be used as a polling place in today's election.

Mrs. Deaton was feeding the Lexington company of state militia sent to Crockettsville to conduct the election.

CARDINAL GIBBONS OPPOSED TO WOMAN SUFFRAGE

Says It Would Be a Death Blow to Domestic Life and Happiness

New York, Nov. 2.—In a letter to the National League for the Civic Education of Women, an anti-suffragette organization,

GOMPERS AND ASSOCIATES

Are Held to be in Contempt of Court, Which Upholds Decision.

Question Whether Further Appeal Can be Taken by Defendants.

Washington, November 2.—The District Court of Appeals today affirmed the decree of the Supreme Court of the District of Columbia adjudging President Samuel Gompers, Secretary Frank Morrison and Vice-President John Mitchell of the American Federation of Labor guilty of contempt of court in the Buck Stove & Range case.

Chief Justice Sheppard dissenting from the opinion of the court on constitutional grounds.

Adds to Gravity.

The court held that the fundamental issue was whether the constitutional agencies of government should be obeyed or defied. The mere fact that the defendants were the officers of organized labor in America, said the court, lent importance to the cause and added to the gravity of the situation, but it should not be permitted to influence

action was removed from the unfair list of the Federation. Messers. Gompers and Mitchell continued to keep alive the boycott by frequent references to it in the Federationist, the official organ of the Federation.

Mr. Mitchell was involved in the trouble by reason of his membership on the Executive Board of the Federation and because it was alleged he had made no effort to prevent the adoption of a resolution at the convention of the United Mine Workers of America in antagonism to the Buck Stove & Range Company. The result of the boycott, it was said, was to cause a decline in the business of the Bucks Stove & Range Company of 50 per cent.

Cause of Trouble.

The boycott placed by the Federation against the products of the Bucks Company grew out of a fight made by the Metal Polishers' Union and supported by the Federation for an eight instead of a nine-hour day. This was resisted by the company and the Federationist published the name of the Bucks Stove & Range Company under the caption of "We don't patronize."

The proceedings against the officers of the Federation were begun August 19, 1907, by the stove and range company. After

ONE DEAD AND ONE DYING

As Wreck Result—Roscoe Leach Killed Outright.

FOURTEEN CARS RENDERED
USELESS IN THE SMASHUP.

McKinney, Ky., Nov. 1.—One dead, one dying, several severely injured, two engines and fourteen cars rendered almost useless, are the results of two wrecks on the Chattanooga division of the Queen & Crescent railroad which occurred near here.

The wreck, which resulted fatally for Roscoe Leach, aged 28, an engineer, was a head-on collision between two heavily loaded freight trains which occurred between this place and South Fork, a station a few miles south of here.

The trains met just outside a sharp curve while going at a high rate of speed and Leach, who was the engineer on the south-bound train, was instantly killed, and a brakeman, whose name could not be learned as this dispatch was sent, was fatally injured.

Leach's body was removed from the wreckage in an almost unrecognizable form and taken to the home of his parents, which was less than half a mile from where he met his death. The brakeman was taken to the Danville Hospital in a dying condition.

An investigation into the cause of the wreck is being made, but the exact cause has not been determined. Both engines were damaged almost beyond repair and about six cars were derailed and almost completely demolished.

Within less than an hour another wreck occurred between South Fork and King's Mountain, but no one was hurt. Eight cars heavily loaded with pig iron were derailed. The wrecking crews from Danville and Somerset were despatched to the scene of the wreck and the work of repairing the track was begun immediately.

Two Men Killed in a Duel

Gonzales, Tex., Oct. 31.—In a duel following a wedding frolic in the Mexican quarter on the Henry Cardwell farm, two miles north of Wrightsboro, two men met death early today.

The victims are: Demolio Errero, of Gonzales, aged thirty-five years, and Marcus Morales, twenty years old.

There were no witnesses to the quarrel nor to the fight. The men went about twenty steps from the building in which the dance was held and began firing at each other.

Errero was instantly killed and his body fell across Morales, the latter lived for about an hour.

HEAD BLOWN OFF

Walter Farley Accidentally Killed by Little Brother While Hunting.

Hederson, Ky., Oct. 30.—Walter Farley, the eight-year-old son of Allen Farley, a merchant at Zion, this county, was shot and killed by the accidental discharge of a shotgun while out hunting this morning. The discharge was effective in the left side of the boy's neck and nearly severed his head. The gun was in the hands of the boy's brother, John Farley, aged eleven years.

The gun was being loaded.

Local Happenings

N. I. Toombs was in Madisonville on business Monday.

Dick Salmon, of Ilesley, was in the city Sunday on business.

Browder Myers, of Madisonville, was in the city on business Saturday.

Coming soon The Big Musical Comedy, of 30 people, Wizzard of Wiseland.

M. H. Tappan, our popular jeweler, made a business trip to Madisonville Monday.

Coming soon The Big Musical Comedy, of 30 people, Wizzard of Wiseland.

Rev. J. M. Burton leaves tomorrow to fill his regular appointment in Ohio county.

F. B. Arnold, the popular cashier of the Peoples Bank, was in Madisonville Monday on business.

The K. K. Band of this city made music for the W. O. W. parade in Madisonville Thursday afternoon.

J. E. Ice, of Topeka, Kansas, was in the city Monday in the interest of the Knights and Ladies of Security.

Julius Coenan and Jas. Ligón left Tuesday for Louisiana, where they will spend a few weeks hunting and fishing.

The Ladies' Aid Society, of the Christian church, met at the residence of Mrs. C. H. McGary Tuesday afternoon.

Roy Peyton, representing the I. C. S. of Scranton, Pa., is visiting in the city. Mr. Peyton's headquarters are in Evansville.

Now that the ladies of the city have had the Earlington cemetery cleaned, the citizens should take pride in keeping it in shape.

Quite a number of our ladies are seen daily witnesses of the demonstration of the new washing machine in the Victory building.

Wanted.—First class coal shooters, track layers and boss timbermen.

NEBO CONSOLIDATED COAL & COKE COMPANY.

The sermon by Rev. Moore, eulogizing the order of Red Men at the Christian church Sunday, was one of the best ever heard in this city.

On last Friday afternoon the East End card club was most delightfully entertained by Mrs. Geo. Atkinson; Mesdames Cain, Rash, Dillman, Featherston and Victory were guests of the club. After the usual number of games a two course luncheon was served. Mesdames Rash, Kline, Southworth and Dillman made equally high scores.

The Moving Throng

Pat Moran was in the County seat Monday.

O. Griffin, of Crofton, were in the city Monday.

Maj. S. M. Kimmel spent Sunday in Henderson.

Simon Clements, of Richland, was in the city Monday.

Hugh Griffin, of St. Charles, was in the city Tuesday.

Judge C. J. Pratt, of Eind, Okla., was in city Friday.

R. B. Bradley, of Madisonville, was in the city Monday.

C. L. Low made the fair sex in Hopkinsville a visit Sunday.

Mrs. M. M. Croft made friends in Madisonville a visit Monday.

Mrs. Veasy and children are visiting in Slaughtersville this week.

Roy Forrester and wife spent Tuesday with relatives in Hartford.

Claude Borders, of Madisonville, visited his parents here Monday.

Joe Teague and wife, of St. Charles, were in the city yesterday.

Lucian Littlepage, of the Pond River country, was in the city Monday.

Brent Hart, of the Journal, Madisonville, was in town Tuesday night.

Allen Settle of Bowling Green spent Sunday in the city with friends.

Misses Janie and Elizabeth Victory visited friends in Madisonville Monday.

L. L. Goodloe and Frank Withers spent a few hours Monday in Madisonville.

Miss Nell Carlin, of Hanson, spent Friday and Saturday in the city with friends.

Robt. Brown, proprietor of the Royal Restaurant, was in Madisonville Monday.

Rex McEuen and wife spent Sunday in St. Charles, visiting Mr. McEuen's parents.

Mrs. J. V. McEuen and Miss Maud Satterfield, of St. Charles, were in the city yesterday.

There will be a religious debate at Slaughtersville, Ky., beginning November 10, 1909, by J. B. Briney, of the Christian church, and T. A. H. Laslie, of the General Baptist church. The discussion will continue six days. Everybody is invited to attend and hear the religious debate.

Miss Rose Daniels, of Spottsville, who has been visiting in the city, has returned home.

Jas. Maloney, Manager of the Grand Leader, made friends in Evansville Sunday.

Miss Bessie Cavinness left Saturday for Terre Haute, Ind., where she will visit relatives.

Jas. Smith and Wilson Borders, of Benton, Ill., who were in the city last week have returned home.

Miss Eula Richards, of Hopkinsville, who has many friends in this city, is visiting relatives in Arkansas.

Harris Simmons and wife, of Nashville, Tenn., will visit Mrs. Simmons' father, Robt. Davis, next week.

Wall Vinson and son Frank, of Brownsville, Muhlenberg county, Ky., were visiting relatives in town Saturday and Sunday.

Hardin Tweedie, of Madisonville, made a business trip to this city Tuesday.

Coming soon The Big Musical Comedy, of 30 people, Wizzard of Wiseland.

Miss Nora Wilkey is now connected with the McLeod store in Madisonville.

Company G, 3rd Infantry, K. S. G., will be inspected at the Armory 8 p. m. on Nov. 17, '09. All members must be on hand.

This afternoon at the residence of Mrs. Elizabeth A. Pearce, the Earlington Chapter of the U. D. C. will meet. Quite a large number of ladies will attend.

The Madisonville High School football team and Paducah team played a tie game at the latter city Monday afternoon. Spillman, of our city, made several star plays, and is developing in a thoroughbred football player.

Co. "E," K. S. G., will, by orders of Adj. Gen. Johnson hold an election for Captainship of that company Wednesday, Nov. 10. The vacancy was caused by the resignation of Capt. Shanks. Three men are aspirants for the office, First Lieut. A. Utley, E. L. Young and Dr. E. B. Hardin. All are qualified and the race may be close.

In giving his reason for using St. Bernard Coal, Chas. F. Hellman, mayor-elect of Evansville, Ind., says that on his former contract with other coal companies he was forced at times to shut down his plant on account of the quality of coal furnished him, and the St. Bernard Mining Co. was the only coal company that would agree to furnish his mills with pea and coke.

MRS. WILLSON TO RETURN TO BALTIMORE HOSPITAL

Will Try Another Course of Treatment For Injured Hand and Arm

Frankfort, Ky., Nov. 2.—Mrs. Augustus E. Willson, accompanied Gov. Willson went to Louisville yesterday afternoon, and, after the Chief Executive cast his vote they proceeded to Baltimore, where Mrs. Willson goes to again enter Johns Hopkins hospital for treatment for injured hand and arm.

Mrs. Willson was in Louisville only a week ago to consult the noted surgeon, Dr. Mayo, who was the guest of Dr. McMurry. It is understood that he did not hold out much hope to her of permanent improvement, but suggested that she return to Johns Hopkins and have the X Ray applied to the shoulder, hand and fingers for the purpose of more minute examination.

The further examination of Mrs. Willson's hand will be conducted by Dr. Bloodgood, one of the most noted surgeons in the United States.

VOTES MEDAL TO PEARY

National Geographic Society Decides on Reward for Explorer's Trip to North Pole.

Washington, Nov. 3.—Commander Robert E. Peary was today voted a gold medal by the National Geographic Society for having reached the north pole.

The board of managers accepted unanimously the report of its subcommittee which had examined the explorer's records and found them to be corroborative of his claim that he had reached the pole.

A medal will be given also to Captain C. A. Bartlett of the Peary expedition.

The society adopted a resolution that the question of whether or not any explorer reached the north pole prior to 1909 shall be referred to a subcommittee of experts, with authority to send for papers or make such journeys as may be necessary to inspect original records.

This indicates that the society proposes as soon as possible to pass on the records of Dr. Frederick A. Cook.

SCARE FOR BAY STATE RULES

Republican Majority is Cut From 60,000 to 8,000.

Boston, Nov. 3.—The Democrats of Massachusetts were far more gratified today in looking over the results of the election than the Republicans, for while the latter succeeded in keeping Governor Eben S. Draper and the rest of the state ticket in their present positions, to win such a victory by a narrow margin of 8,092 votes in a total of 271,998 was too close for comfort. Draper's vote, complete, is 190,045, and James H. Vahey's (Dem.) 181,958.

LINCOLN INSTITUTE TO BE INCORPORATED

John B. Atkinson invited to Take Part in Forming the Organization.

Mr. John B. Atkinson has been invited to attend a meeting at Louisville, November 4th, to take measures for the incorporation of the Lincoln Institute of Kentucky. Besides members of the Berea College board and of the Ex-Norton board, Bishop Burton, of Lexington, Mr. Joe B. Atkinson, of Earlington, and Messrs. Chas. C. Stoll and Arthur Ford, of Louisville, are invited to take part in this important matter. President W. G. Frost has been ordered by his physicians to take a long rest and vacation and is undertaking to get the Lincoln Institute organization perfected before he lets go of the work for a time.

URGES SMALL FARMS AS NEED OF COUNTRY

Jas. J. Hill Says Methods Must Be Changed to Feed Future Population.

Land Must be Better Cultivated or Nation Will Suffer Shortage.

"Smaller farms" must be the means through which the United States will feed a population of 200,000,000 in 1950.

This is the fundamental proposition which James J. Hill advances in the first of a series of articles in the *World's Work*. He first excludes the possibility of producing enough wheat under present methods and predicts \$1.50 as the price of that staple in the near future. He also concludes that it will be impossible for us to purchase abroad enough grain to cover an annual deficiency which he places at 38,000,000 bushels. The remedy as Mr. Hill sees it is this:

1. The farmer must cultivate no more land than he can till thoroughly. With less labor he will get more results. Official statistics show that the net profit from one crop of 20 bushels of wheat to the acre is as great as that from 2 to 16, after original cost of production has been paid.

2. There must be rotation of crops. Ten years of single cropping will pretty nearly wear out any but the richest soil. A proper three or four year rotation of crops actually enriches the land.

3. There must be soil renovation by fertilizing; and the best fertilizer is that provided by nature herself—barnyard manure.

That the United States must move quickly in this matter Mr. Hill firmly believes.

The startling aspect of this changed condition of supply and demand," he says, "is that it is immediate. We have to provide for a contingency not distant from us by nearly a generation, but already present. The food condition presses upon us now. The shortage has begun. Witness the great fall in wheat exports and the rise of prices.

"For the first nine months of the fiscal year, ending June 30, 1909, our export of wheat and flour combined was but 103,251,200 bushels. Such is the size of the national surplus in a fair crop year. It must shrink more than 100,000,000 bushels for each three years hereafter. Obviously it is time to quit speculating about what might occur even twenty or thirty years hence, and begin to take thought for the morrow. As far as our food supply is concerned, right now the lean years have begun.

"I have stated the national problem in terms of wheat for the sake of clearness; its solution admits of similar statement. The average wheat yield per acre in the United States in 1907 was 14 bushels. The average for the last ten years is 18.88. That is, in 1907 it required 45,211,000 acres to produce the 684,087,000 bushels that we raised. It is a disgraceful record.

"About a century ago this was the average production per acre of Great Britain. After the appointment of a royal commission and a campaign for the better methods of cultivation begun over a hundred years ago, the fields of the United Kingdom today, tilled for a thousand years, in a climate where excessive moisture is unfavorable to wheat growers, yield over 32 bushels of wheat per acre. Germany, an agricultural country almost from the time of Tacitus, produces 27.6 bushels per acre. Suppose the United States produced 28 bushels, or double its present showing. That would be noth-

ing extraordinary in view of what European countries have done with inferior soils and less favorable climates.

"There is scarcely a limit, at least none has yet been reached by the most intensive cultivation, to the value which an acre may be made to produce. Right methods of farming, without which no agricultural country such as this can hope to remain prosperous, or even to escape eventual poverty, are not complicated and are within the reach of the most modest means.

"They include a study of soils and seeds, so as to adapt the one to the other; a diversification of industry, including the cultivation of different crops and the raising of live stock; a careful rotation of crops, so that the land will not be worn out by successive years of single cropping; intelligent fertilizing, by the system of rotation, by cultivating leguminous plants and, above all, by the economy and use of every particle of fertilizing material from stock barns and yards; a careful selection of grain used for seed; and, first of all perhaps in importance, the substitution of the small farm, thoroughly tilled, for the large farm, with its weeds, its neglected corners, its abused soil and its thin products.

"This make room for the new population whose added product will help restore our place as an exporter of food stuffs. The fruit farmer, the truck farmer, every cultivator of the soil who has specialized his work, has learned the value of these simple principles. The problem is how to impress it upon the 30,000,000 or more such persons who live on the land and till it.

"The modern agricultural method is both a money-maker and a labor saver. The cost of rent and production for continuous wheat cropping averages \$7.50 per acre. When, therefore, the farmer obtains, as so many in the Northwest do, a yield of eight or ten bushels per acre, it just about meets, at average farm prices, the cost of production; leaving him either nothing at all for his year's toil, or else a margin of debt.

For the same amount of labor, covering the same time, but in-

telligently applied to a smaller area, he might easily produce by improved methods twenty bushels to the acre, leaving him a profit of over \$12 per acre. The not unreasonable yield of twenty-eight bushels would net him \$20, which is 10 per cent on a valuation of \$200 per acre for his land.

"This gigantic waste, applying the same measure to the production of the entire country, is going on every year. If it can be stopped the saving would pay for building a Panama Canal every year; it would, in two years, more than pay the estimated expense of improving every available water way in the United States; it would save more money for the farmer than the railroads could if they carried all his grain to market free of charge."

DO IT NOW.

EARLINGTON PEOPLE SHOULD NOT WAIT UNTIL IT IS TOO LATE.

The appalling death-rate from kidney disease is due in most cases to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms give place to chronic disorders and the sufferer goes gradually into the grasp of diabetes, dropsy, Bright's Disease, gravel or some other serious form of kidney complaint.

If you suffer from backache, headaches, dizzy spells; if the kidney secretions are irregular of passage and unnatural in appearance, do not delay. Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders—they cure where others fail. Over one hundred thousand people have recommended them. Here's a case at home:

J. H. Davis, formerly of Main and Robinson Sts., Earlington, Ky., says: "I am using Doan's Kidney Pills at the present time, in fact, have just finished my second box. I obtained the remedy at the St. Bernard Drug Store and think highly of it. I do not care to go into details regarding my case in a public statement but will be glad to tell anyone what Doan's Kidney Pills did for me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

OBEY GOD'S CALL.

Nothing is really lost by a life of sacrifice; everything is lost by a failure to obey God's call.—H. P. Liddon.

GOMPERS AND ASSOCIATES

(Continued from first page)

Justice Wright declared the defendants had "intimidated, brow-beaten and coerced" the patrons of the stove and range company until it had suffered severe loss.

Pending an appeal, the three defendants were allowed to give bail for their reappearance.

QUESTION OF APPEAL.

When the decision was rendered, neither the labor leaders nor their counsel were present. As forecasted by Mr. Gompers in a recent issue of the *Federationist*, an attempt will be made to appeal the case to the United States Supreme Court.

The right of appeal, however, is a matter of controversy. Some attorneys hold that as the decision finds the contempt to have been a criminal offense, the Court of Appeals would have the last say in the matter, as it has of all criminal cases in the district. Others, however, contend that as the constitutional right of free speech and liberty of the press is involved, the labor leaders may prosecute an appeal. No action will be taken towards the arraignment of the men until the matter of appeal has been determined.

ASKS TROOPS TO PROTECT HIS OWN FAMILY.

George Longnecker, of Mason County, Makes Request, Fearing Night Riders.

Maysville, Ky., Oct. 30.—George Longnecker, son of Benj. Longnecker, whose house was riddled with bullets by night riders this week, was here today and telephoned the Adjutant General at Frankfort for military protection. He feared the riders would do harm to his father and sister when they returned to their home. Mr. Longnecker stated that nothing would be left undone to get hold of the guilty parties.

O'BRIEN-HENRY.

No handsomer couple ever marched up the aisles of the church of Immaculate Conception in this city than Mr. Dee Henry and O'Brien at 6:30 Tuesday,

Oct. 26, to the sweet strains of the Mendelssohn wedding march.

The parties are well known in this city and need nothing said as to their popularity. The bride was dressed in a handsome traveling gown. The groom in the conventional black. They left at 8:30 for New Orleans and other Southern cities. The presents were many and beautiful. They will return next week and make this their future home.

FROGGERS ELECT

TICKET AT HOWELL

CARRY ALL OFFICIALS—STATED THAT LTD WILL BE KEPT ON THE RAILROAD TOWN

Evansville, Ind., Nov. 3.—The "Bullfrog pond" ticket at Howell, which came near being ineligible for the ballots because the petitioners failed to certify their candidates to the election commissioners in proper form, was elected in Howell over the street car line. The ticket got its name and made its fight on the issue of doing away with a malarial and mosquito-breeding frog pond at the end of the street car line. The vote, by candidates, was:

Clerk—Clyde M. Nisbet, 219; Jake Becker, 91.

Ward councilmen—First, William Rowe, 180; Oscar Tieman,

128.

Second, James Rignan, 196;

W. L. Walden, 112.

Third, Eugene Covert, 176; Charles Schukraft, 129.

Marshal—W. Duher, 178; C. A. Felstead, 153.

Felstead is the present Marshal and has made a capable official. Duher is popular and ought to make an efficient enforcer of the law. The lid will be kept on Howell, it is said, just as in the past. Howell was wide open like Evansville, up to the time the Boehne administration cleaned up the city.

MARYLAND NEGROES

KEEP VOTE

Suffrage Amendment is Defeated by From 12,000 to 14,000.

Baltimore, Nov. 3.—The latest but still incomplete returns of the election in Maryland indicated that the suffrage amendment intended to disfranchise negroes has been defeated in the state by from 12,000 to 14,000; that Dr. Joshua Hering (Dem.) has been re-elected state comptroller; that the legislature will be Democratic, insuring the re-election of Senator Rayner, and that a split ticket will be elected in Baltimore.

THE REASON WHY

Vinol

IS THE BEST STRENGTHENING TONIC

for Feeble Old People, Delicate Children, Weak, Run-down Persons, and to Counteract Chronic Coughs, Colds and Bronchitis, is because it combines the two most world-famed tonics—the medicinal, strengthening, body-building elements of Cod Liver Oil and Tonic Iron, without oil or grease, tastes good, and agrees with every one.

We return your money without question if Vinol does not accomplish all we claim for it.

ST. BERNARD DRUG STORE, EARLINGTON.

St. Bernard Mining Co., Incorporated, Drug Department.

To all persons subject to Bilious Attacks, Sour Stomach, Indigestion, Constipation, Headache, Dizziness, Heartburn, Vertigo (blind staggers,) Foul-Breath, Sallow Complexion or other symptoms of a Torpid Liver, WE SAY,

TAKE

HERBINE

It is the Surest, the Safest, the most Speedy and Complete Liver Tonic and Regulator in the Whole Field of Medicine.

It is a marvelous remedy. Its invigorating effect on a Torpid Liver is less than miraculous. It acts instantly. The first dose brings improvement, a few days' use cures the most obstinate case. Tired, weak, despondent victims of a Torpid Liver are restored almost in a day.

A BRILLIANT RECORD IN MALARIA

It cures Malaria, Chills and Aque by destroying the disease germs in the system and driving them out of the body. Where Malaria is prevalent it is a faithful guardian of health. It puts the Stomach, Liver and Bowels in such fine condition that the malarial germ cannot exist.

Every home should have a bottle of this great Liver Tonic and Regulator. It stands for health for the whole family. The chill season is here and all those who are Constipated, who have a Torpid Liver or Digestive Disorders, will surely have trouble with that arch enemy of the race. BE PREPARED! Get in condition at once by taking HERBINE and you can defy the disease.

Thursday November 4, 1908

The cheese-mites asked how the cheese got these, and warmly debated the matter:

The Orthodox said that it came from the air, and the Heretics said from the platter.

—Sir Arthur Doyle.

DANCER ONCE SOCIAL STAR

Mrs. Parkison, Who Killed Husband and Self at Reno, Was Senator's Daughter.

Reno, Nev., Nov. 3.—It developed at the coroner's inquest at Goldfield, over the remains of Webb Parkison and his wife, that Mrs. Parkison was the daughter of Senator Pollard of Wisconsin, her maiden name being Annie Pollard, educated in a convent at La Crosse.

Later she lived in Washington, D. C. where she became an expert dancer. She married a circus man who died. The rush to Goldfield took her there, where Parkison, who was regarded as the wealthiest broker there when his Consolidated and Mohawk mine was valued at \$250,000, fell in love with her dancing and later married her in Oakland, Cal.

MONSTER EAGLE HIS QUARRY.

Big Stone Gap, Va., Nov. 3.—A gray eagle, measuring seven feet from tip to tip of wings and weighing 20 pounds, the first known to have been seen in this section in several years, was killed by Letch Harrison near his home at Horton's Summit, when fighting with several chicken hawks.

Captures 10-Foot Alligator.

Hope, Ark., Nov. 3.—J. A. Thomas captured an alligator measuring 10 feet and 3 inches on a farm adjoining his place at Patmos.

EMPRESS USES TYPEWRITER.

It is related that in passing through her husband's library recently the attention of the empress of Japan was attracted to a peculiar-looking machine. On learning that it was a typewriter, and having it explained to her, she became interested and began to hit the keys. Now, it is said, she does a good deal of correspondence for the emperor.

It is further reported that Queen Alexandra of England, Queen Maude of Norway, the czarina and the queen of Portugal are all fond of using the typewriter in corresponding with their intimates.

It is probable that all of them put together do not use the machine as much as Carmen Silva, the queen of Romania, who rattles her poems and stories on a typewriter.—St. Nicholas.

BUSINESS MAN'S FAILING.

"The policeman says you stole a die," remarked the magistrate, "what have you got to say?"

"It's my busy season," explained Tired Tim, "and I was so rushed at the noon hour I'd only time to run out and snatch a little lunch."

CURFEW SHALL NOT...

The Stranger—Somebody told me there was a curfew law in this burg? The Constable—There ain't, but there should be, b'gosh! That darn recitation has been recited here without hindrance as long as I kin remember!

Women

Women who suffer from female ailments, frequently neglect their trouble, till a general break-down follows. Don't wait till your case is as bad as that—take Cardui in time. It is a safe, reliable medicine, for all women.

Take CARDUI

Mrs. Rena Hare, of Pierce, Fla., tried Cardui and afterward wrote: "I was a sufferer from all sorts of female trouble, had pain in my side, drawing palms in my legs, could not sleep, had shortness of breath.

"I suffered for years, until my husband insisted on my trying Cardui. The first bottle gave me relief and now I am almost well."

Try Cardui.
It will help you."

E 43

SHOES.

On the world holds lots of troubles That can give a chap the blues. But there's none that grief redoubles Like a pair of pinching shoes. Like a pair of pinching shoes.

When a fellow's toes are hurting And he has to limp along, Short, bad words he may be blurting, But he'll never sing a song.

By the same sign, while we're singing These two stanzas 'bout the feet, There is naught more comfort bringing— Truth to tell, they're hard to beat— Than a pair of old mud-splashers Cut to fit a fellow's corn.

Though they're hardly fit for "masters," Soothing more than they adorn.

TIS EVER THUS.

A fool and his automobile are soon parted.

NO, YOU CAN'T.
The world is wide
And the way is long.
But you can't make friends
With a trouble song.

THE GLOOMY OUTLOOK.

Trust President—Is there no way we can put this competing company out of business without getting into trouble ourselves?

Legal Adviser—I fear not, the way things seem to be going now.

T. P.—But competition will be so expensive.

L. A.—You will have to cut down your expenses.

T. P.—That's true. I say, James, you can tear up that check I told you to fill out for the African missionary work.

SILVER LINING.

Wife (reading)—Here's another case of a bachelor going wrong. The cashier of a bank, aged 40, has been sent to the penitentiary for 25 years for embezzlement.

Husband—Well, he's in luck.

Wife—Why, how do you make that out?

Husband—He'll have a quiet, peaceful time of it until he gets out—then he'll be too old to marry.

DRAWING THE LINE.

"No," said the fussy old bachelor, "I'm not an advocate of boarding house socialism. No, indeed!"

"What do you mean by boarding house socialism?" queried the shoe clerk.

"It's the kind," explained the f. o. b., "that gives everybody an equal chance at the piano."

LOVE WILL LIGHTEN THE LOAD.

STOCKSON BONDS—Take this basket of fruit to 446 Grosvenor square. It's not too heavy for you, is it?

Messenger Boy—It won't be after a while, sir.

SCIENTIFIC.

I've never seen a diplodocus—Maybe never will; No doubt, 'most any hocus pocus Stuffed would fill the bill.

GETS THEM.

Church—I hear your doctor's got three automobiles?

Gotham—That's right. He's bound to get the people coming or going.—Yonkers Statesman.

MISTAKEN.

"Dear me!" I'm awfully tired. We've had the piano tuner here all forenoon."

"Oh, was that the tuner? I thought it was your daughter playing again."

THE REAL TUNE.

"They say everything in life is attuned to certain keys. What keys are the slippery places in life tuned to?"

"I guess they are see sharp or be flat."

THE COST OF FRETTING.

More men would get along better in this world, if they weren't all the time sitting down and fretting because they aren't.

A MUDDY STREAM.

"I see where a man wants to give E. H. Harriman the Missouri river."

"Um—that's merely a new way of throwing mud."

THE OLD-FASHIONED WAY.

"I saw our new neighbor this morning. She swept through her parlor—With queenly grace!"

"No, with a broom."

Alcohol

By ADA MAY KRECKER

R. HAUSEMANN of Berlin is one of the scientific dignitaries. And he has found four orders of geniuses. Lowest in rank he places those whose inspirations flow from drugs, narcotics and drink. They have the most primitive temper, both mental and physical. Their mind and body stuff are comparatively coarse and gross. Whatever their genius it lags behind the contemporary march as a souvenir and survival of cruder ages. It belongs to the sluggish primitive races whose inert energies are roused into activity only by the roughest excitements.

It is recorded that the rude natives of uncivilized lands beg their overseers to lash them to whip away the physical torpor which prevents them from doing even their rough brute tasks. But slave drivers with whips could do little with a twentieth century poet wooing his muse or an astronomer calculating the distance from Arcturus to the sun. These require a different stimulus. As men refine the grosser excitants make no appeal to them and are unable to waken the forces needed for their civilized work. Their dainty systems use, of course, totally different faculties from the savage organism and respond to entirely different stimuli. They have entirely different habits and perform totally dissimilar work.

Now, if a man be leading a purely animal or muscular life, I will say he can perhaps feel no evil effect from the drug, but if he is leading an intellectual life, if he is engaged in an action which interests him keenly, stirs him, impels him to the use of his mind, then he will inevitably feel the slowing effect, the deteriorating effect of alcohol.

But there needs no argument to press home the proof of a decline in the use of liquors. It is perfectly evident throughout the country. And in narcotics a similar change of heart is coming about.

Prof. James, the Harvard psychologist, urges the superior claims, as excitants, of morning air and sunlight and fine skies and mountain walks and dewy flowers and great thoughts and sweet aspirations above the frothy hopes of the foaming glass. They are the natural stimulants of refined organisms.

These need no other. No, not even coffee and tea. An Englishman, E. Baron Russel by name, has been making predictions for the year 2,000 A. D., and has it that by that time the human system will have so refined that tea and coffee will be placed in the same category that alcoholic stimulants occupy nowadays.

In India when a stranger meets a woman he always addresses her as "matare," meaning mother, from which fact one can easily find out that in India a woman is respected, always occupying the noble place of mother.

Again, an Indian woman's name begins with a term meaning "with grace" and does not indicate whose wife she may be or whom she belongs to. In this country a married woman is always recognized as "Mrs." that is, the wife of somebody or belonging to somebody, which clearly indicates that woman's position as a separate individual is hardly recognized.

Furthermore, a synonym for wife in the Hindoo languages is "ardhangnini," meaning "half the body," which also indicates her equality in matters spiritual with the husband. In India they are neither "better" nor "worse" halves, but only equal halves, which is absolutely needed to make a full, healthy soul, as the marriages in India are considered to be with the two souls and not with the bodies.

No doubt the womanhood of India, too, is progressing along modern lines, without giving up what are best of the ancient customs.

Don't fret, don't get "pestered" over small things; wear the lightest sort of clothing; avoid rich and heavy food; drink all the buttermilk you can swallow, and I'll go bond that you will emerge from the heated term in fine fettle.

Above all things abjure thick steaks and use hog flesh sparingly. Fruits are good, but there are people to whom strawberries are undoubtedly poisonous. Rice is a grand summertime diet. On the coast one is blessed with an abundance of sea food on which life can well be sustained while the torrid days last.

But don't forget about the buttermilk. I lay more stress on that than all else. My own allowance is at least one quart per diem and on days when Old Sol seems to be going out for a record I consume as much as a gallon. It is the most blessed beverage ever vouchsafed to inspiring humanity and I am absolutely convinced that if taken regularly it will prolong life.

"How long must a young man know a girl before he may propose to her?" writes an anxious young man.

He does not say whether he means how long he should wait for his own good or merely for a chance of success. However, I am going to advise him to know the girl at least a year before he asks her to be his wife.

Every girl appears at her best when in the society of a young man who interests her. No matter how bad tempered she may be, how disrespectful to her mother, how spiteful to her brothers and sisters, she can always manage to convey an impression of angelic sweetness to an eligible young man. That is, she can do so for a brief time. But in a year, if the youth is admitted to the family circle, or if his opportunities of observing it are fairly frequent, he will certainly be able to form a fair estimate of the charmer's disposition.

Amiability is not the very most important quality in a wife, but is one of the essentials to a happy marriage.

CITY DIRECTORY.

CITY OFFICERS.

Mayor—James R. Rash.
Police Judge—Ernest Newton.

New Oliver No. 5

Sets Swiftest Pace Ever Known in Typewriter Selling.

The wonderfu new model, Oliver No. 5, has taken the market by storm.

Its reception by the public has exceeded in enthusiasm anything we had dared to anticipate.

Employers and stenographers alike have welcomed it as the one machine that answers the multiplying need of the hour.

The cry is for Speed! Speed! Speed!—and the Oliver responds.

The demand for Durability is filled by the sturdy, steel-clad Oliver. To a call for a writing machine that will do many things and do each of them equally well, the Oliver answers with its unexampled versatility.

Its visible writing saves the strain on eye and brain.

Its legibility lends beauty to its work. The letters that bear the Oliver's ever-imprint are the letters that seem to speak.

Oliver No. 5 fairly bristles with new and exclusive time-and-saving features. We have space to mention only a few of the more important ones.

—Disappearing Indicator shows exact printing point.

—Balance Shifting Mechanism saves operative effort.

—Line Ruling Device is fine for tabulated work.

—Double Release doubles convenience.

—Non-Vibrating Base insures stability. Yet with all of those added improvements, we have still further simplified the Oliver by fusing brains with metal.

Oliver No. 5 is a dream come true—the dream of Thomas Oliver crystallized into this wonderful mechanism of shining steel that embodies every possible requirement of a perfect writing machine.

Ask the nearest Oliver agent for a free demonstration of Oliver No. 5, or send for The Oliver Book—yours for a postpaid.

THE COUGH OF THE LUNGS

Dr. King's Discovery
FOR COUCHS & Colds. PRICE \$1.20. Trial Bottles Free AND ALL THROAT AND LUNG TROUBLES. GUARANTEED SATISFACTORily OR MONEY REFUNDED.

Professor Got Results.
It is said a noted professor of chemistry, who is always experimenting, thought his three attractive children too lethargic, and so he administered a diet of yeast. The result has been prompt and effective. According to neighboring observations, the professor will have to prescribe sedatives.

HER THREE ESSENTIALS

Smartest Looking Girl at Resort Gave Most Attention to Hair, Feet and Corsets.

"You're about the smartest looking girl on this piazza," remarked the old bachelor to the bronze-haired girl at a nearby summer resort. "How do you manage it?" As he knew she worked for a living 50 weeks in the year, she didn't mind.

"Till tell you," she confessed, "because you can keep a secret and you know I don't have much money to spend. I have just two good points and I make the most of them. And then I always wear fine corsets."

"Hub!" he ejaculated. "What are the alleged good points?"

She smiled cheerfully: "Hair and feet."

He instantly surveyed each and nodded his approval.

"So," she went on, "as I can't afford much in the way of gowns, etc., I blow myself on shoes and stockings, which are much cheaper and quite as noticeable."

"Yes," he asserted; "the way you wear them."

"Then," she continued serenely, "I get the latest style of hair the minute it comes out. That keeps people so busy looking at my puffs they don't have time to notice my dress."

"But the gr—corsets?" he suggested.

"An absolute necessity," she smiled back at him.

Source of Profit to Women.

Illuminating of documents is a new field of work for women in England, and it might recommend itself as a congenial and profitable employment for women in this country.

Mrs. Hamer-Jackson of London is urging women to take up the work, which she says properly belongs to them. Mrs. Hamer-Jackson is one of the best illuminators in England. She makes a large income and does all her work at home.

She describes illuminating as an art. Her work is devoted almost exclusively to the decoration of public addresses, books and cards in fine floral scrolls and designs, often spotted with gold and silver, in the style of the old Anglo-Saxon and Gothic manuscripts.

Mrs. Hamer-Jackson says there is practically unlimited work to be done for private persons. It is her plan to organize a school for the instruction of young women in the work.

A Hair's Breadth Escape.

Do you know that every time you are thinking it will just cure itself you are inviting pneumonia, consumption or some other pulmonary trouble? Don't risk it. Put your lungs back in perfect health and stop that cough with Ballard's Horehound Syrup.

Price 25c, 50c and \$1.00 per bottle.

Sold by St. Bernard Mining Co., Incorporated, drug department.

Embracing the Subject.

Do you think that young fellow who is visiting our Nell is trying to persuade her to marry him? "Well, from a glimpse I had of them last evening as I passed the parlor, I rather think he is bringing some pressure to bear on the subject."

Succinctly Put.

"He dances beautifully," said the summer girl, "but he hadn't been here a week before he was engaged to be married." "Ahl" replied Miss Cayenne; "he two-steps better than he side-steps."—Washington Star.

Forced Into Exile.

Wm. Upchurch, of Glen Oak, Okla., was an exile from home. Mountain air, he thought, would cure a frightful lung-racking cough that had defied all remedies for two years. After six months he returned, death dogging his steps. "Then I began to use Dr. King's New Discovery," he writes, "and after taking six bottles I am as well as ever." It saves thousands yearly from desperate lung diseases.

Infallible for Coughs and Colds, it dispels Hoarseness and Sore Throat. Cures Grip, Bronchitis, Hemorrhages, Asthma, Croup, Whooping Cough. 50c and \$1.00, trial bottle free, guaranteed by all druggists.

A Social Mistake.

"Bliggins seems unpopular in his neighborhood." "Yes," answered Miss Cayenne. "He was so anxious to make people like him that they concluded he couldn't amount to much and was trying to butt in."

A Tiny Baby

can't tell you in words what the trouble is; but if it gets weaker and weaker, loses flesh and is cross and peevish you can be certain that it has worms. Give it White's Cream Vermifuge, guaranteed harmless. Expels the worms and puts the baby in a healthy normal condition.

Sold by St. Bernard Mining Co., Incorporated, drug department.

Have Them or Get Them.

"It is said that impetuous people have black eyes."

"Yes, and if they don't have them they are apt to get them."

An Old Jest.

"Notice the footnote at the bottom of the page," laughed the court fool, as the royal attendant's shoes emitted a squeak.—Jack O'Lantern.

DRESS SUIT FOR A CHURCH

Interesting Information Given by the Groom to the Shrinking Bride.

They were on their honeymoon—he all-important; she, timid and shrinking. He intended that she should miss none of the sights as they rode down Broadway, New York, in an open car one hot night, so he called her attention to various points of interest in a very loud voice and with elaborate gesticulation. His ideas, however, were rather hazy as to location, and she looked in vain, at his solicitation, for the Metropolitan tower clock on the Flatiron building, although she assured him timidly that she had seen it. Then the conductor, at Fourteenth street, volunteered "This is Herald square, where the new Pennsylvania station is to be." After this startling information, given in all seriousness, passengers were even more amazed to hear the bridegroom saying: "Just a minute now and we come to Grace street."

"Grace street?" she asked. "What's that?"

"Oh, that's a big church, where all the swells go. Here it is now—as the stately outline of the church came in view—and would you believe it? You can't get in without a dress suit!"

It was with real regret that an interested listener had to signal for the car to stop.

Best I Have Ever Known.

It is the best: "I have been holding Hughes' Tonic for years, it is the best chill remedy. I have ever known. During the past two years I sold nearly twelve gross. It comes nearer being a universal chill cure than anything I ever handled." Sold by Druggists—50c. and \$1.00 bottles.

Prepared by Robinson-Pettet Co., Incorporated, Louisville, Ky.

Where It Goes.

"That man made an immense fortune out of a simple little invention!" "Indeed! What did he invent?" "Invent? Nothing, you dub! He was the promoter!"

Experience.

Not a blade of grass but has a story to tell, not a heart but has its romance, not a life which does not hide a secret which is either its thorn or its spur.—Henri-Fredric Amiel.

Kills Her Foe of 20 Years.

"The most merciless enemy I had for 20 years," declares Mrs. James Duncan, of Haynesville, Me., "was Dyspepsia. I suffered intensely after eating or drinking and could scarcely sleep. After many remedies had failed and several doctors gave me up, I tried Electric Biters, which cured me completely. Now I can eat anything. I am 70 years old and am overjoyed to get my health and strength back again." For Indigestion, Loss of Appetite, Kidney Trouble, Lame Back, Female Complaints, its unexampled.

Only 50c at all drug stores.

Translated Into English.

Every one has heard the story of the Englishman who was told, when asking what was done with all the superfluous fruit grown in California— "We eat what we can and what we can't we can."

The joke was told to another Englishman, who received it with a rather sickly smile, and upon his return home gave his own version of it.

"Quer people, those Americans," he said. "Peculiar sense of humor. They told me as one of their choice jokes that when asked what they did with their fruit that was left over, they answered that 'They ate what they could, and what they couldn't they could.'

It's a Crime

to neglect your health. The worst neglect that you can be guilty of is to allow constipation, biliousness or any liver or bowel trouble to continue. It is poisoning your entire system and may lead to a serious chronic disease. Take Ballard's Herbine and get absolutely well. The sure cure for any kind of troubles of the stomach, liver and bowels.

Sold by St. Bernard Mining Co., Incorporated, drug department.

A Skeleton Defined.

The superintendent was in the habit of dropping in to the different class rooms and demanding a recital of lessons from the pupils. One day her

STANDARD TO PIPE OKLAHOMA'S OIL

OIL COMPANY COMPROMISED ITS
CONTROVERSY WITH HAS-
KEL'S STATE.

ORGANIZE NEW CORPORATION

Will Be Exclusively a Common Car-
rier and Directly Under the Su-
pervision of the State Cor-
poration Commission.

Bartlesville, Ok., Nov. 2.—The Standard Oil company has compromised its controversy with the state of Oklahoma by organizing the Oklahoma Pipe Line Company, to build an eight-inch pipe line to carry oil to the Standard refinery at Baton Rouge, La., according to an announcement made here. Construction work will begin at once, and it is expected that oil will be running through the line by February 1.

This will relieve the oil situation in the Oklahoma fields, where low prices, caused by the inability of the producers to market their oil, have caused considerable loss.

The new company will be an Oklahoma corporation, directly under the supervision of the state corporation commission, which has authority to regulate rates. The company will be exclusively a common carrier and will not buy oil nor own property of any kind in Oklahoma, save for the purpose of operating its pipe line.

Soon after statehood was established the Prairie Oil and Gas Company, a foreign corporation, undertook to build a new pipe line and was enjoined by Attorney General West, under a provision of the constitution denying to foreign corporations the benefits of the right of eminent domain over public highways.

Attorney General West was opposed in his suit by Governor Haskell, on the ground that the attorney general had no authority to bring a suit in the name of the state unless directed to do so.

BROTHER'S MIND WRECKED BROTHER'S MIND WRECKED.

Demands Release of Confessed Mur-
derer of Three That He Might
Fatten Him.

Leavenworth, Kan., Nov. 2.—Un-
kempt and disheveled in appearance, Patrick McMahon, brother of the Kansas City, Kan., confessed triple murderer, appeared at the penitentiary at Lansing and demanded that his brother Jim be surrendered to him, that he might take him home and fatten him.

It is believed that the tragic death of three members of his family and the confession of his brother James has caused Patrick McMahon to lose his mind.

The peculiar feature of the murder was made by James McMahon, who last Friday confessed that he killed his two sisters and his brother-in-law, was the fact that the public in general had picked Patrick McMahon as the guilty man.

Patrick McMahon is by nature taciturn and reserved to the extreme. James McMahon, on the other hand, was jovial, a good fellow, well-meaning, and apparently did everything in his power to assist the officers in discovering the murderer.

Timothy McMahon, another brother of James McMahon, died from the excitement incident to the crime. He had been an invalid for two years.

ROBBERS SLAY 2 WOMEN

Posse of Farmers Seeks Yeggmen
Who Killed Mother and Daugh-
ter in New Jersey.

Perth Amboy, N. J., Nov. 2.—The authorities began an investigation of the murder of Mrs. Silas H. Marks and her daughter by robbers, who took \$1,600 from their home, four miles from here.

The bodies of the woman and girl were found by Mr. Marks, who returned from church and discovered the double crime. He is frantic with grief.

A posse of farmers, aided by dogs, took up the trail, but there is little hope of capturing the culprits, who are believed to be yeggmen. The countryside is alarmed and the authorities will have the co-operation of hundreds of residents.

Adam God's Wife Is Freed.
Kansas City, Mo., Nov. 2.—Mrs. Melissa Sharp, wife of James Sharp, whose band of religious fanatics fought a battle with the police here last December, was freed from the county jail here. Her husband, generally known as "Adam God," is now in the state penitentiary serving a 5-year sentence for the killing of policeman Michael Mulane, one of the two victims of the riot. Mrs. Sharp was never brought to trial.

Buffalo Has \$350,000 Fire.
Buffalo, N. Y., Nov. 2.—Fire de-
stroyed the lake and canal ware-
houses on the Western Transit Com-
pany and the Knopf & Son
Warehouse Company and damaged elevator B of
City Elevator Company. The to-
tal loss is estimated at \$350,000.

Its Effect on the President—Its Effect on the Country.

WALSH STAYS OUT PENDING APPEAL

CHICAGO BANKER WINS COURT FIGHT ON DAY OF FINANCIAL TRIUMPH.

HIS ROADS BRING \$27,000,000

Steel Trust Reported to Have Bought
Properties — District Attorney
Fears Aged Financier Will Flee
to Some Foreign Country.

Chicago, Oct. 29.—Thursday was the day of John R. Walsh's financial triumph, after years of struggle, during which he faced complete ruin.

The day also brought him a personal victory in the refusal of the United States circuit court of appeals to commit him to the federal penitentiary at Leavenworth, Kas. That tribunal handed down its decision on the petition of United States District Attorney Sims to deprive the aged banker of his freedom immediately. Sims' fears Walsh will flee the country.

It is believed that the tragic death of three members of his family and the confession of his brother James has caused Patrick McMahon to lose his mind.

The peculiar feature of the murder was made by James McMahon, who last Friday confessed that he killed his two sisters and his brother-in-law, was the fact that the public in general had picked Patrick McMahon as the guilty man.

Patrick McMahon is by nature taciturn and reserved to the extreme. James McMahon, on the other hand, was jovial, a good fellow, well-meaning, and apparently did everything in his power to assist the officers in discovering the murderer.

Timothy McMahon, another brother of James McMahon, died from the excitement incident to the crime. He had been an invalid for two years.

PREDICTS SEAPORT CITY

EAST ST. LOUIS TO HAVE HAR- BORS ON THREE SIDES.

Gov. Deneen Will Ask \$20,000,000 to
Make Illinois a Navigable Stream
to Chicago.

Cairo, Ill., Oct. 27.—At a conference of governors of the Mississippi Valley, Governor Deneen, in outlining the great work of water improvement in Illinois, predicted a great future for East St. Louis, and declared it would become a seaport city, with harbors on three sides.

The water improvement work contemplated under the Deneen administration calls for an appropriation of \$21,000,000 to make navigation open from Chicago to East St. Louis. Of this, the engineers estimate, it will cost that sum to complete the Chicago canal from Lockport to Utica, and the \$10,000,000 to dredge the Illinois river to Grafton and the Mississippi to East St. Louis. Cahokia creek will be wiped out of the general drainage scheme of East St. Louis.

At the next session of the legislature Gov. Deneen will ask that a bill be passed providing \$20,000,000 to make the Illinois a navigable stream connecting Chicago and East St. Louis.

In addition, Illinois plans building 2,000 miles of canals connecting the chief waterways of the state. Gov. Deneen's address was the most valuable of those made at the conference because Illinois is leading all other states in waterway improvement.

The governors discussed the possibility of holding a general conservation congress at Washington in January, but that matter was laid over until Friday. Gov. Hadley of Missouri presided. Others who spoke in favor of waterway development were Govs. Noel of Mississippi, Wilson of Kentucky and Watase of Michigan.

GEN. O. O. HOWARD DEAD

Attacked by Heart Disease While Sit-
ting in Chair—Dies Before
Physician Arrives.

Burlington, Vt., Oct. 27.—General Oliver O. Howard, last of the Union commanders of the Civil war, died at his home in this city. Heart disease was the cause of the noted soldier's death. He was 79 years old.

Last week Gen. Howard was in Ontario delivering his lecture on Abraham Lincoln. His last public appearance was in London Saturday night. Monday he returned to his home in Burlington and was apparently in his usual good health.

While sitting in a chair at his home, he was attacked by heart disease and was dead when a physician reached the house.

Including Gen. Howard's services in the Indian wars, he was probably in more engagements than any other officer in the United States army. He was born in Leeds, Maine, November 8, 1830.

WRIGHT PUPILS UP ALONE

Lieuts. Lahn and Humphrey Now Fin-
ished Aeroplanists, Each Make
Successful Flights.

Washington, Oct. 27.—For the first time in the history of heavier-than-air flying machines in this country, two men operated a Wright biplane without either Wilbur or Orville accompanying them. Lieuts. Frederick E. Humphrey and Frank P. Lahn each went up at College park and each showed a complete mastery of the craft.

Lieut. Humphrey made the first flight at 8:16. He stayed in the air three minutes and twice circled the field. After a false start, Lieut. Lahn got up at 10:15. He made a half dozen circles of the field and several smaller ones, remaining in the air 13 minutes.

VANDALS WRECK CEMETERY

MORE THAN 100 TOMBSTONES ARE RUINED.

Monuments of Prominent People Are
Destroyed—Attempt Made to Enter
Vault Containing Bodies.

Carlinville, Ill., Nov. 1.—Damage estimated at \$800 was done in the Carlinville city cemetery as a result of hallowe'en pranks by vandals. More than 100 tombstones were damaged. Twenty valuable stones were badly broken and some were totally demolished. No clew as to who were the guilty parties has been found.

Several old monuments of prominent people were among those destroyed. The shaft of Joseph Montgomery was thrown down and broke. A. W. Mayfield's monument, which has stood since 1864, was completely demolished. The large shaft of S. L. Mago was thrown from its base. The worst and most criminal offense of the entire affair was the attempt to demolish the large shaft of S. L. Woodward. The heavy metal doors were battered and chiseled. Also the stone facing of the vault was chipped and marred. The vandals did not succeed in forcing the doors open.

Some small stones, nearly a century old, were broken. Two bodies are in the Woodward vault. Most of the damage was done in the old part of the cemetery, back from the street. The entire community is indignant over the affair and every attempt is being made to find the guilty parties. Officers Vanmeter and Ryan have arrested two suspects, Jake Klein and Joe Gehrig, both of Carlinville.

JAPS SEE PATOMAC DRIVES

View Boulevard Along Which Cherry
Trees Sent by Mikado Will Be
Planted.

Washington, Nov. 1.—The honorary commercial commissioners of Japan and their large retinue arrived in Washington, and were given a fitting official welcome. The most interesting event of the day for the visitors was an automobile ride out Potomac drive, for it is along this boulevard that the 2,000 cherry trees presented to the United States by the emperor of Japan will be planted.

The water improvement work contemplated under the Deneen administration calls for an appropriation of \$21,000,000 to make navigation open from Chicago to East St. Louis. Of this, the engineers estimate, it will cost that sum to complete the Chicago canal from Lockport to Utica, and the \$10,000,000 to dredge the Illinois river to Grafton and the Mississippi to East St. Louis. Cahokia creek will be wiped out of the general drainage scheme of East St. Louis.

At the next session of the legislature Gov. Deneen will ask that a bill be passed providing \$20,000,000 to make the Illinois a navigable stream connecting Chicago and East St. Louis.

In addition, Illinois plans building 2,000 miles of canals connecting the chief waterways of the state. Gov. Deneen's address was the most valuable of those made at the conference because Illinois is leading all other states in waterway improvement.

The governors discussed the possibility of holding a general conservation congress at Washington in January, but that matter was laid over until Friday. Gov. Hadley of Missouri presided. Others who spoke in favor of waterway development were Govs. Noel of Mississippi, Wilson of Kentucky and Watase of Michigan.

This statement is made on the authority of a director of the Chicago, Milwaukee & Gary railroad, a steel trust line, which it is planned to merge with all the Walsh roads into one system. The combination of these roads, says the director, would give the Gary line one of the best freight roads in this section of the country.

According to reports current in LaSalle street—reports that are generally credited—the United States Steel Corporation has practically agreed to buy the Wabash railroads—the Chicago Southern and the Southern Indiana at a price between \$25,000,000 and \$27,000,000. Through J. P. Morgan & Co. the trust is reported to have paid Walsh \$100,000 in return for an option on the roads.

This statement is made on the authority of a director of the Chicago, Milwaukee & Gary railroad, a steel trust line, which it is planned to merge with all the Walsh roads into one system. The combination of these roads, says the director, would give the Gary line one of the best freight roads in this section of the country.

With all of this good fortune coming to Walsh on the same day the situation presented was dramatic. Despite the promised rehabilitation of his fortune, that can have no bearing on the question whether he shall or shall not be sent to prison. Should the court grant the government's petition Walsh must go to the penitentiary, or be turned over at once to the custody of the United States marshal. There is no appeal from this decision excepting to the supreme court of the United States.

In any event United States District Attorney Sims proposes to take no chances with Walsh. In Sims' petition for Walsh's immediate commitment he expressed the fear that the banker might flee to some foreign country like Tweed. Walsh in his reply promised that he would make no such effort, but would abide entirely by the court's view. He pleaded for further liberty.

MINING NOTES.

MINE DISASTER KILLS TWELVE

Explosion in Coal Shaft Thought to Have Been Caused by Dynamite

Johnstown, Pa., Oct. 31.—Twelve men were killed in the Cambria Steel company's coal mine two miles from Johnstown, tonight, as the result of what is supposed to have been a dynamite explosion. All the dead are foreigners. Three men escaped with their lives by a perilous climb on life ladders through mine gases and falling slate, up the steep walls of the main shaft.

The explosion occurred as the workmen were putting their tools away at the end of their day's work. A force of men working on the shifts, began clearing the debris and fallen slate in the lower levels of the mine where the explosion occurred. It was hours, before the workers gained perceptible headway. When the final barrier of rocks were passed, the rescuing party found twelve huddled forms close together, the bodies indicating that the men had died of suffocation.

Mine officials refused definite information as to the cause of the disaster, saying they were awaiting the arrival of state mine examiners tomorrow before issuing a statement.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Locomotive Blasts.

HEAD-ON COLLISION.

Fireman Jumps and Sustain Slight Injuries

A collision occurred at Latham Station early Sunday morning, but very little damage was done. Freight engine No. 2196 ran into switch engine. Joseph Hann, fireman on the freight locomotive, jumped off and was slightly injured, his knee striking a cross-tie, cutting a gash requiring several stitches to close up. The pilot of the engine was crushed. Hanna was taken to his home in Howell, Ind. at 10 o'clock. Hopkinsville Kentuckian.

No. 35 was delayed Wednesday morning 2 hours on account of the heavy travel south there were 11 coaches loaded with Homeseekers from the Northwest. They were doubled head end out of this city.

Edgar Bramwell, of Nashville, Tenn., and claim agent for the L. & N. R. R. Co., was in the city Tuesday.

Joe Robinson, conductor on 51 and 52, was in the city this week on vacation.

Hugh Blair and Bryant Deal made friends in Madisonville a visit Monday.

DEMOCRATS HAVE COMPLETE CONTROL OF LEGISLATURE

Republicans Will Have Only About Thirty-two Members in Lower House

Louisville, Ky., Nov. 3. In complete returns from the various Representative and Senatorial districts throughout the State indicate that the Democrats will have complete control of both branches of the General Assembly, which convenes in January.

The loss of the two Republican Senators in Louisville, one

in Covington and another in the Boyle and Garrard district give the Democrats a safe working majority in the upper house, while the lower branch of the Legislature will be overwhelmingly Democratic, the Republicans having but about thirty-two members in that body.

"DRYS" MOVE FOR CAPITAL

South Carolina Congressman Will Propose Prohibition for District Of Columbia

Anderson, S.C., Nov. 3.—Believing that prohibition in the South, wherever it has been tried, has been beneficial to the people, Congressman Wyatt F. Aiken of the seventh district of South Carolina, to-day declared he would introduce a bill for prohibition in the District of Columbia at the next session of Congress. Mr. Aiken is a member of the House committee on the District of Columbia.

COLORED COLUMN

S. B. DRIVER, EDITOR

Memorial services will be held at the Baptist church on the death of Rev. H. H. Gordon, a former pastor of the same, on the second Sunday in November. Revs. Whitside and Evans officiating.

A grand banquet will be given by the Baptist church at the skating rink November 20. This is to be a notable affair. See program and small bills later.

Rev. T. Garrett has been assigned to the C. M. E. Church here this conference year, and will be with us on Sunday. We trust every member will be present and bring a friend.

The revival at Hecla is in full blast. Much earnestness is in evidence as well as lung power.

Now the excitement and the auxiliary of election is about over, those who received the majority, regardless as to party affiliation, shall hold the offices. So let all turn their attention to the affairs of the hour. The civil government of this country is complicated. Yet so nicely adjusted that every cog in the wheel fits in the niche prepared for it. Legislative, judicial, county, all revolve according to their own law.

Why is a policeman who arrests three dozen hoboes less four like a man who happens up an alley and finds a chunk of dynamite behind a handbook shop?" asks the man with the hiatus on his head. "Because he hoped located bum 32. Good morning."

"Very well," hisses the man with the luminous whiskers. "Very well! The answer to mine is that one nabs the tagless and the other tabs the nags, but I shall give it to some more meritorious literateur."

And the door closed, shutting off the breeze.

Unfortunate Emulation.

A North Carolinian recently eloped with three women on the same train. And it seems that events will persist in showing that Solomon lived for nothing.—Salt Lake Tribune.

Mrs. I. E. Edmonson is quite sick at this writing.

Joseph Childers, of Hopkinsville, is now with his brother, James Childers.

There will be a grand Rainbow Tea entertainment and a Thanksgiving dinner combined at the A. M. E. Zion church, under the auspices of the Stewardess Board, Nov. 25.

Also supper at night. Dinner 25c. And the delicacies usual as such entertainments in abundance.

Come and let us enjoy the good things.

The Little Cuss.

A llama looks as innocent as an officer man in the Salvation army. He chews no tobacco, but he can spit into a man's eye 12 feet away and never touch an eyelash, and oh, how it stinks and stings. Little boy, don't tease the llama.—New York Press.

Tip to Local Bachelors.

Coming down to the office at an early hour the other morning the Review man noticed one of our most popular and highly educated young ladies busily engaged in carrying in and stacking the winter supply of wood. And she didn't seem to mind a bit who stopped and rubbered at the unusual sight. The chap who gets that girl to trot with him along life's stormy pathway will be in big luck.—Jefferson (Ore.) Review.

SCENTING THE BLUEFISH

Valuable Information from the Wise Skipper for a Party Out Fishing.

"Ah!" said the skipper out with a party bluefishing, turning his face to windward as he spoke and at the same time throwing the wheel over and bringing the boat up and putting her off on the other tack, "I smell them!"

"You smell them?" said a member of the party in the boat. "Do you mean to tell me you can smell the fish?"

"Why, certainly," said the skipper, as he got another little pull on the sheet, "or you can smell where they are, which amounts to the same thing."

"You see," the skipper continued, "the bluefish is a voracious feeder—very voracious; he will eat about a million of the little fishes that you find around so plentiful in the water, put them apparently for the bigger fish to feed on, and when he has gorged himself on about a million, more or less, of these little fishes the bluefish will settle down on the bottom and there disgorge them, and this disgorged food, oily, floats up to the surface, and that you can smell, and it means bluefish; and I can smell them now, sure!" And so the skipper got an inch more of the sheet and peered ahead and kept her a-going with every inch drawing, just a-humming and a-boiling, keen on the scent.

And did the party come up with the bluefish and catch lots of them? A boatload of fish? Keep hauling them in till they all got tired of fishing? Well, that—as a once celebrated English writer has so aptly remarked—that is another story; scenting bluefish and catching them being two quite different things.

CONUNDRUM MAN ONCE MORE

This Time He Has a Fine One About Policeman and Civil Service Clerk.

"Say," whispered the man with the iridescent whiskers and the green handkerchief, leaning over the desk of the man with the bushy bald spot. "I've got a dandy for you to-day. You can use it if you want to. It's nothing to me. I believe when a man's a friend of a man he ought to give the man the benefit of what good ideas come to him from time to time. Live and let live is my motto."

"We're not handling mottoes today. What is the other thing?" asks the man at the desk, absent-mindedly trying to sharpen his fountain pen.

"What is the difference between a policeman who got his appointment through the influence of a brother-in-law who is in cahoots with an alderman and who is detailed to arrest people who have no vehicle license upon their wagons and carriages, and a civil service clerk whose duties consist in registering the descriptions and numbers of automobiles?"

"Why is a policeman who arrests three dozen hoboes less four like a man who happens up an alley and finds a chunk of dynamite behind a handbook shop?" asks the man with the hiatus on his head. "Because he hoped located bum 32. Good morning."

"Very well," hisses the man with the luminous whiskers. "Very well! The answer to mine is that one nabs the tagless and the other tabs the nags, but I shall give it to some more meritorious literateur."

And the door closed, shutting off the breeze.

A llama looks as innocent as an officer man in the Salvation army. He chews no tobacco, but he can spit into a man's eye 12 feet away and never touch an eyelash, and oh, how it stinks and stings. Little boy, don't tease the llama.—New York Press.

Tip to Local Bachelors.

Coming down to the office at an early hour the other morning the Review man noticed one of our most popular and highly educated young ladies busily engaged in carrying in and stacking the winter supply of wood. And she didn't seem to mind a bit who stopped and rubbered at the unusual sight. The chap who gets that girl to trot with him along life's stormy pathway will be in big luck.—Jefferson (Ore.) Review.

CLOTHES A BUSINESS ASSET LADY PASSENGER'S LOG

Self-Supporting Woman Who Would Succeed Should Be Dressed.

Any woman who has her way to make in the world, whether in social or business circles, must recognize that dress is one of her chief assets, a writer in the Delineator says. The efficiency of a saleswoman, a stenographer, a teacher—in fact of any woman who works—is judged by her dress. Shabbiness is almost always taken as a sign of ill-success and it is a popular if somewhat fallacious theory that merit and ability always succeed.

Carelessness is quite as blighting to one's prospects as shabbiness. It may not be altogether just or fair, but it is true that wherever you go your social position, your income, success or failure, your ability and character are appraised by the clothes you wear. If I were starting in business—I don't care in what capacity—and had only a very little money to invest, I would put it into clothes—clothes that were suitable, attractive and well made. It is what financiers call "good risk"—an investment that is almost certain to turn out well.

I don't for a moment advocate extravagance in dress except for women of large means. With them extravagance is more than excusable—it is justifiable. It keeps money in circulation that would otherwise be idle. It gives legitimate employment, which is the wisest and most beneficial form of charity, to women who need work. But for women in moderate circumstances a parsimonious attitude toward dress is a false and often fatal economy. If you want to succeed in anything, look successful, able, competent. Otherwise you can never inspire confidence in others, and to look successful, prosperous, assured, you must be well dressed.

Did as He Was Told.

Some years ago the Yankee schooner Sally Ann, under command of Capt. Spooner, was beating up the Connecticut river. Mr. Comstock, the mate, was at his station forward. According to his notion of things the schooner was getting a "leettle" too near certain mud flats which lay along the larboard shore, so aft he went to the captain side and with his hat cocked on one side said:

"Cap'n Spooner, you're getting a leettle too close to them flats. Hadn't ye better go about?"

The captain glared at him.

"Mr. Comstock, jest you go forard and tend to your part of the skuner. I'll tend to mine."

Mr. Comstock went forard in high dudgeon.

"Boys," he bellowed out, "see that ar mud hook alls clear for lettin' go!"

"Ay, ay, sir!"

"Let go, then!" he roared.

Down went the anchor, out rattled the chains, and like a flash the Sally Ann came luffing into the wind, and then brought up all standing. Mr. Comstock walked aft and touched his hat.

"Well, cap'n, my part of the skuner is to anchor."—Bluejacket.

Conducive to Speed.

Farmer Nubbins—I wuz readin' a piece in one of these air comic papers t'other day. Maria, which allowed that a dude couldn't run. Said t'wad in him to travel faster than a walk.

Mrs. Nubbins—Well, Hiram, hev ye seen anything to convince ye to the contrary?

Nubbins (with a reminiscent chuckle)—Hey I? Wa, I jest wish the editor of that comic paper had bin out in the field with me a spell ago an' seen that air city dude who boards with the Hankinses sa'nterin' across the pastur' lot ahead of my two-year-old bull!

True Love.

There is but one mate for each man and woman in the world and until they recognize the fact and learn with patience to await the note of absolute conviction which is the one infallible guide to happiness, marriages will fail as they now aid the church will give its empty blessing to those ill-assorted pairs whom God forever leaves un blessed.—Exchange

Not Long to Be Cast Down.

A brave man's spirit its vigor soon regains.—Homer.

DETROIT'S GOOSE

Where Housewives Buy Living Birds for More Than One Reason.

Far up Hastings street, where long rows of poplar trees mark the approach to the Polish settlement, says the Detroit Free Press, is a market the like of which is not to be found elsewhere in the city.

On a vacant corner, surrounded by a high fence, an enterprising east sider has established a goose and duck market that attracts patrons from far and near. The women of the neighborhood are a tribe particular as to how they buy their poultry. The guaranty of freshness furnished by the fact that a goose or duck is alive is not of so much consequence as the knowledge that feathers, which might otherwise be wasted, can be transferred to the ticks so much in vogue in this quarter.

"Oh, Mr. Officer, please stop." He turned and saw a dear old lady with a wrapper thrown around her, peeping through her half-open door.

"Yes, madam," said the officer.

"Mr. Officer, please; would you call this a gale?"

"Not even half a gale, and this is such an excellent sea boat that you needn't worry a bit," explained the officer.

BOTH WIVES IN COURT

LAUNDRYMAN FOOLS TWO FOR SIX MONTHS.

Tells One He Works Days, To the Other He Works Nights—One Aids Other's Divorce Suit.

St. Louis, Nov. 3.—For six months Viva Dobbs, a laundryman of 351 Cook avenue, spent half of his time with one woman and half with another, each woman believing that she was his legal wife.

To one he said that he worked at night and to the other that he worked in the daytime.

This was the testimony given in Judge Muench's court Tuesday by Mrs. Lillian Handing of 3231 Locust street and Mrs. Frances E. Dobbs, of 4028 Ashland avenue.

Mrs. Handing, the woman with whom Dobbs made his home at night, has joined his first wife, Mrs. Dobbs, and is aiding her to obtain a divorce.

Mrs. Dobbs is the mother of two children. She testified that she and Dobbs were married six years ago, and that she never expected the duplicity of her husband when he told her he worked at night. She learned, she said, that he was not employed and that he was supporting two families on money which he obtained from Mrs. Handing.

Mrs. Handing testified that she and Dobbs were married in Memphis last February. She believed him to be single. He told her that it would not be necessary for her to go to the marriage license office and now she suspects that the ceremony was bogus.

She came to St. Louis with him and they lived at 3221 Locust street. He told her, she said, that he had divorced from his first wife, Mrs. [unclear] who then lived on Kensington [unclear] when pointed out Mrs. Dobbs to his divorced wife, "she said.

SLAYS 5-YEAR-OLD CHUM

Stands Child Against Wall and Blows Out Brains—Proudly Tells of His Achievement.

Seattle, Wash., Nov. 3.—Declaring he killed his 5-year-old playmate because of a family feud, Samuel Stewart, 8 years old, under arrest calmly detailed the circumstances of the slaying of Fred Bestman.

The killing was the culmination of a bitter feud of years' standing, which had extended even to the children of the warring families.

The two boys were alone at the Stewart home, and the Stewart lad deliberately stood the younger child up against a wall, and with his father's rifle blew the boy's brains out. He then locked the house, and hunting up his father, proudly told him of what he had done.

When Bestman, hearing of the killing, hurried to the Stewart house and tried to remove the body of his son before the arrival of the coroner, the father of the Stewart boy interfered, and the two grappled over the dead boy's body.

Neighbors separated the two in time to prevent a second tragedy.

HOME RULE IN 4 YEARS

Irish Parliamentarian Raises \$6000 in Chicago Within a Half Hour After His Arrival.

Chicago, Nov. 3.—"Ireland will have home rule within four years," and "Tay Pay" O'Connor Irish parliamentarian and journalist, who was in Chicago to raise funds for the Irish national cause.

Within a half hour after his arrival "Tay Pay" had collected \$6000 for the cause, and he said Tuesday he hopes to increase it to \$50,000 before he leaves the city.

The leaders in England dare not oppose home rule beyond the second session, he said. "It will be passed favorably to the Irish party by a generous majority in the house of commons. At that session the lords will probably reject it. But within three or four years they will be forced to bow to the will of the people. So I feel safe in assuring you that Ireland will have home rule within that time."

Army of the Tennessee Reunion
Columbus, O., Nov. 3.—Columbus is full of veterans of the civil war to-day who are attending the thirty-ninth reunion of the Society of the Army of the Tennessee. The first meeting was held this morning, and this afternoon the Ohio Commandery of the Loyal Legion held its stated meeting. To-night the annual banquet will be given at the Great Southern hotel. To-morrow night the reunion closes with a public session in the board of trade auditorium.

Charged With Stealing a Still.
Nashville, Tenn., Nov. 3.—United States revenue officers arrested George Hampton on a charge of being implicated in spiriting away the apparatus of the still, still when it was stolen from the courthouse. The still was brought in when Bud Suddars, a blind man, was taken into custody by the revenue men.

Four Holdup 50 Italians:
Astoria, N. J., Nov. 3.—A daring holdup was revealed when report was made to the police that fifty men, all up at the point of pistols, were captured and robbed of \$2,400, being with his and jewelry. The [unclear] escaped.

ADVICE FROM THE BENCH.

Some years ago farmers along the line of the Missouri, Kansas & Texas railway brought suit against it, and engaged a young lawyer named Brown, Judge Gantt, who was presiding, was compelled to throw many of the cases out of court because they were improperly brought. Brown was mad all over. Swelling with indignation, he arose and said: "Your honor, will you please tell me how it is possible in this court to get justice against a railroad company?"

Judge Gantt quietly ignored the contempt of court shown by the lawyer and asked: "Do you wish an answer to that question?"

"Yes, sir," defiantly replied the indignant lawyer; "yes, sir, and I want to know how a farmer can get his case into this court so that it will be heard."

Judge Gantt smiled and said: "Well, first, Mr. Brown, I'd advise the farmer to hire a lawyer."

Brown wilted.—Cleveland Leader.

Joe Miller's Intention.

"But I can't see," said the friend to old Joe Miller, after the latter had shown him the manuscript of his Jest Book, "why you ever took the time to collect all these old jokes."

"I didn't mean to do so much of it," explained Joe, confidently. "At first I started out to arrange the scenario of a musical comedy, but learned that the time was not yet ripe for such a production."—Life.

Caustic Comment.

"I want handsome linen when I dine at a restaurant," declared the first citizen. "I want first-class food; I want a tastefully arranged table; and, above all, I want perfect service."

"And you want it all for 15 cents," responded the second citizen. "That's all that alls you."

NO CHANCE FOR ARGUMENT.

"Once my wife and I were very disputatious. Now we never quarrel at all."

"Really?"

Of Course Not.

The end-seat hog is back again. He gets the choicest seat; now, sausage made of end-seat hogs. Would not be fit to eat.

Looking for a Bargain.

"No," said the frigid-hearted maid, "I cannot be your wife. My heart and hand are priceless."

"That being the case," rejoined the wise young man, "I'll leave my address."

"What for?" she asked, in surprise. "So you can send me word when they are marked down," he explained.

But Well Earned.

"Can a doctor's profits be honest money?"

"If he is a conscientious and capable one, why not?"

"He makes his money off sick people, doesn't he?"

"Of course."

"Then are not his, ill-gotten gains?"

Mean Man.

"The meanest man in town," said a neighbor the other day, "is the one who was invited to a miscellaneous shower for a bride-to-be last week."

He brought her a cake of common soap and then stole the wrapper to apply on an excursion ticket."

Benefit of Habit.

"They say they found that new singer in a humble position. By the way, they say, too, she has a fine range. Can she manage it?"

"She ought to; she used to be a cook."

Temptations of the Name.

"The man who was here talking in the interest of that good roads construction company has gone off with the funds."

"Well, what else could you expect from an acknowledged road agent?"

Significant.

And, true to their profession, we note that just as soon as the doctors departed from our fair city, the undertakers came in. How natural that seems.

A Proud Ambition.

"What is the use of locking the stable doors after the horse is stolen?"

"Everybody does that as a matter of pride. It shows what they can do when they try."

Different.

"Things are mighty different since the baby came," said his wife.

"Yes, but why the remark now?"

"Nobody ever thinks of inviting us to their summer cottage nowadays."

"Where are you going in such a hurry, anything going on?"

"You a prize fight is coming on."

DO SOLDIERS ATTENTION!

Any old soldier who made a Homestead Entry of 40, 80 or 120 acres in any state in the Union before the year of 1874, has a claim coming to him from the Government, provided he has never sold this right or taken up another homestead. It does not make any difference whether he proved up on his original Homestead Entry or simply left it.

A soldier who never made a Homestead Entry, or one who entered land after June 22, 1874, has nothing to sell.

We buy these claims. The widow or heirs of a soldier can also sell these rights.

R. H. PEALE & CO.,
Judge Building,
Salt Lake City, - - - Utah.

How She Knew.

"I do think," exclaimed Mrs. Tolker, indignantly, "that Mrs. Gadabout is the most aggravatingly inquisitive woman, if I may say so, I ever knew. Why, I never pass her on the street but what she invariably turns her head and stares back at me to see what I've got on and how it sets from behind."

"How—er—that is, I was wondering, my dear, how you found out that the mean thing looked back. Some one tell you?" inquired Mr. Tolker, innocently.

And Mrs. Tolker straightway turned the stream of her indignation, seething hot, from Mrs. Gadabout to her "insinuating wretch of a husband," as she fondly termed him, and after the first pyrotechnic outburst steadily refused to speak to the unfortunate man for the rest of the evening.

Enough Talking Already.

"Stebbins—That new congressman of ours don't amount to much; why, all he does is to set that an' vote an' the rest do all the talkin'! He ain't offered to make a speech yet."

"Hough—huh, eh? Was, if it's the case we other keep him that along. We're gittin' plenty of music from congress now with him chokin'."

Joy Riding.

It would be interesting to know why the customer is so much more determined on suicide when he has a party of friends than when he is out with his employer's family.

Lies Included.

Bach—Ever tell a lie?

Polishing by Hot Air.

The marvels of friction are infinite. The use of the sand blast for polishing metals is quite a recent invention, and now it is followed by that of a blast of simple hot air. It is the velocity that gives the polishing power.

The articles to be treated are placed in a basket in a centrifugal machine driven at a very high speed and heated air is blown from a pipe through the basket. A high polish is thus produced very rapidly.

Nickel plated articles that have become tarnished are made bright in a few minutes. Wet metal fresh from the bath needs no preliminary drying, for the current of air dries and polishes at the same moment. It is only necessary to so pack the articles that the air reaches them on all sides.—Youth's Companion.

No Excuse for Conceit.

However much a man has done to be proud of, it isn't enough to warrant a swelled head.

A Primer of Life.

"I wish you would give my clerks a talk on salesmanship," said the retail dealer. "Better let 'em watch me selling you a big bill," suggested the traveling man.—Louisville Courier-Journal.

A Awkward Compliment.
An inspector-general was relating incidents of famous national encampments.

"I remember a little Japanese who attended one of our banquets," he said, smiling, "and a queer compliment that he paid to a colonel's wife. I sat between the two and the lady said across me:

"Mr. Takashira, you compress the ladies' feet in your country, don't you?"

"Oh, no, madam; that is a Chinese custom," said the Japanese. "We Japanese allow our ladies' feet to grow to their full size. Not that—"

"And he bowed and kissed in the polite Japanese way:

"Not that they could hope to rival yours, madam!"—Modern Society.

Particularly Scandal.

There are people who believe everything they hear, and a lot they don't.

Exchange.

A Foxy Suggestion.
"I wish you would give my clerks a talk on salesmanship," said the retail dealer. "Better let 'em watch me selling you a big bill," suggested the traveling man.—Louisville Courier-Journal.
